DETAILED ACTION

EXAMINER'S REASONS FOR ALLOWANCE

Allowable Subject Matter

Claims 1-10, 20, 22, 24 and 26 are allowed over the prior art of record as amended in the reply filed 8/09/2007.

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose either singly or in combination the claimed device of the indwelling catheter comprising the specific connection tube and elastically deformable hemostasis valve.

The closest prior art of record is Nakajima (US2002/0128604) and Schneider et al. (5,322,518), however these references do not disclose the device as claimed or described above.

Regarding claims 1 and 26, the closest prior art of record fails to teach among all the limitations the specific slidable hemostasis valve present within the tapering tube with the differential diameter and openable/closable portion for the purpose of blood flashback control.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
